

BISON LED MUSIC STAND LIGHTING

Detailed Specification

LED Music Stand Lighting is our immensely popular LED lamp applicable to all our music stands. It spreads an even light over the whole tray making it easy to read your sheet music. The lamp is easily mounted on our music stands and secured with a wing screw. Easy to adjust with the flex arm which gives you light where you want it. The LED-light is rated at 360 lumens and is mains powered. Thanks to the LED technology it does not emit any heat. Available especially for the Master Conductor's Music Stand we have an extra-long LED-lamp for optimal lighting.
