DRAFTING CHAIR

Detailed Specification

Our drafting chair is very popular worldwide among sound technicians, conductors, percussionists, and double bass players. It comes in three different designs, each one made to suit different needs. All three chair designs have an elaborate and high-quality mechanism that helps you adjust the height and inclination of the seat, as well as the height of the backrest, in one simple step. The gas spring for height adjustment is placed within a five-legged base. The footrest is mounted on the gas spring and can be separately adjusted in height. The padding is soft and comfortable. The gas spring is available in different lengths, on Boss and Maestro, it is rotatable. Our three different Elevated Chairs:

BOSS

– Standard seat and foot ring

MAESTRO

– Bicycle seat and foot ring

BUDGET

– Standard seat and footrest with a twist lock
