# ENTRE CHAIR TROLLEY

## Detailed Specification

Entre Chair Trolley is the perfect transport wagon for schools, canteens, parish homes, conference halls, concert halls, and other assembly halls. It is designed and constructed to carry different models of stackable chairs. Thanks to the adjustable inclination of the trolley, it can be adapted to suit different kinds of leg constructions and chair heights. The number of chairs that can be stacked varies depending on the chair design. It is a flexible and useful transport wagon, popular among those who handle and transport chairs. Thanks to the two large, heavy-duty wheels in the front and the two lockable swivel castors in the back, the Entre Chair Trolley is easy to manoeuvre while ensuring secure transport. When not in use it can be folded together, making it easy to store.
