

BISON OPERETT

Detailed Specification

Operett is for musicians and choir singers that need a chair that is adaptable and easy to adjust. It is an ergonomic chair with great comfort. The depth and height of the backrest are easy to adjust with the adjustment knobs. A curved part on the back causes the seat to adapt to the inclination of the upper body. The backrest can be adjusted both in depth and height and has a flat seat which gives you stability. Operett is easy to carry which makes it suitable for touring orchestras. The chair is stackable and we recommend using it with our specially designed chair trolley Entre. The chair is also available with adjustable legs – Operett Pro.
